

# MARKETING PORTAL

A better way to work with marketing analytics.  
Save time, stay engaged, and be data-driven.

## Juggling multiple platforms?

How many different marketing platforms and tools do you have to access throughout the day to do your job? How many have analytics living inside them?

How much time are you wasting  
accessing information?

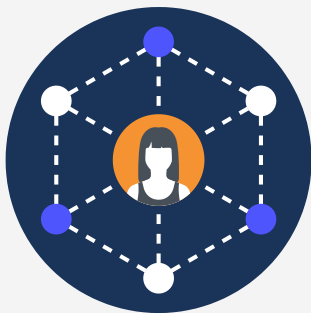

Same search, different system?

Does every system  
look different?

Can you tell a story using  
all of the available  
analytics?

What if you could  
access everything  
you need from a  
single portal?

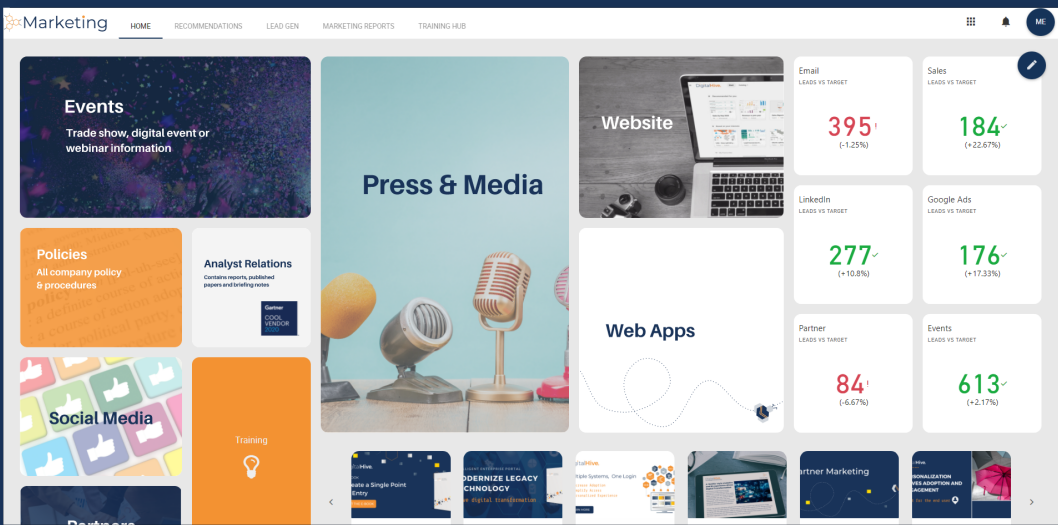

Does each system know you &  
understand your role?

## IT'S POSSIBLE!

### One Portal. All things Marketing.

Digital Hive is a modern easy-to-use portal that keeps marketing teams productive wherever they work – without any help from IT! Brand and personalize it, track KPI's and access all your marketing analytics from the one place.
