Your Intelligent Enterprise Portal

Digital Hive is the first intelligent enterprise portal that seamlessly connects to all analytics, business intelligence and content management systems, providing everyone with a single place to access all reporting assets and information. We unlock access to reports from legacy tools and enable the use of new, fast and frequently changing digital technologies.

With Digital Hive, we're able to take all of your existing technologies and re-package them in a single portal experience that's personalized and engaging. We give complex and legacy business information systems a consumer 'makeover' to create an experience that's simple, modern, and dynamic - a pragmatic way to retain investments in all business systems, while helping users get the most out of them.

Enterprise Portal Solutions

Whether you need a platform to consolidate all your BI tools or a self-service portal for customers, Digital Hive provides everyone with direct access to the information they need, when they need it.

Custom Hive

Building blocks of intelligence

Built around the habits of the end-user and their interactions, Digital Hive is a feature rich one-stop-shop that's highly adaptable, flexible and secure.

Connect in real time to Analytics, BI & CMS

Catalog & organize millions of information assets, tag, rate, comment and bookmark for quick access

Brand your portal to match a specific corporate identity and make it an extension of the business

Surface and recommend reports and information directly to users and increase engagement

Search across all systems at Google-like speed

View reports and dashboards from different BI systems in a side-by-side view

Accelerate custom development timelines, save time, money and resources with our SDK

Inherit security from all underlying systems and eliminate any additional set up and ongoing maintenance
